

Estos son los dos archivos de mi carpeta

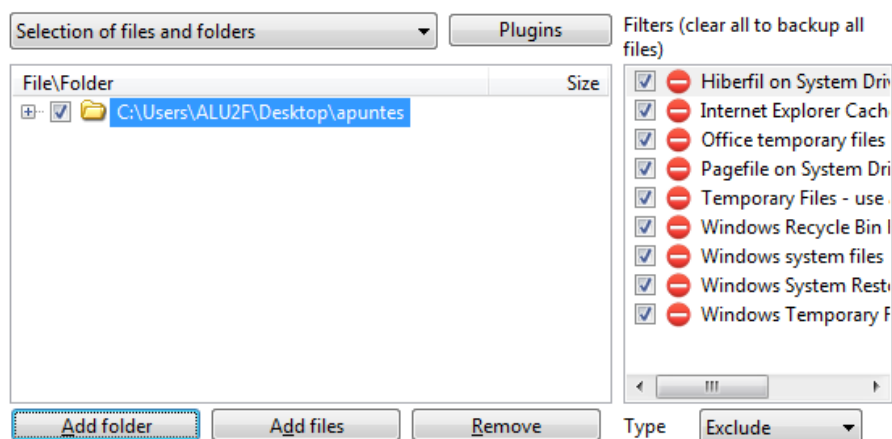

Creando el backup.

Añadimos la carpeta en cuestión.

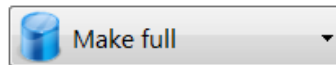

What do you want to backup?

[Help: What do you want to backup?](#)

Hacemos una copia total.

How do you want to backup?

☐ Use block backup

Full backup type will create in destination a zip file with all source files and folders.

Encrypt?

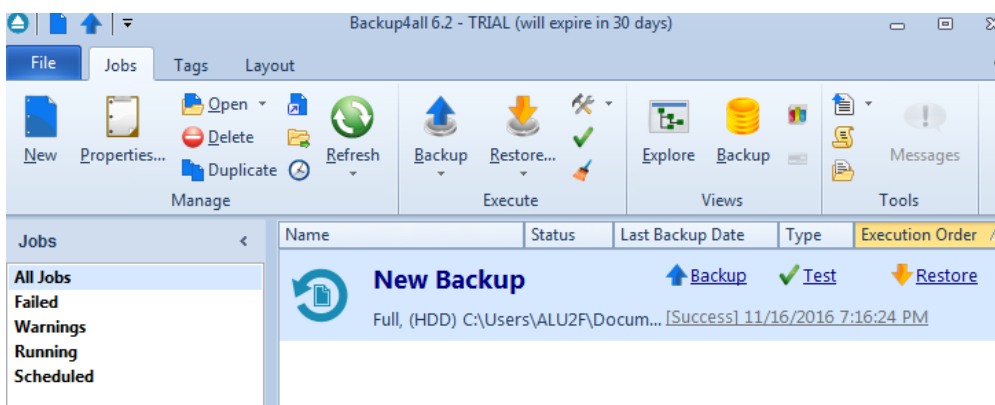

☐ Yes ☒ No

New password:

Confirm new password:

[Help: How do you want to backup?](#)

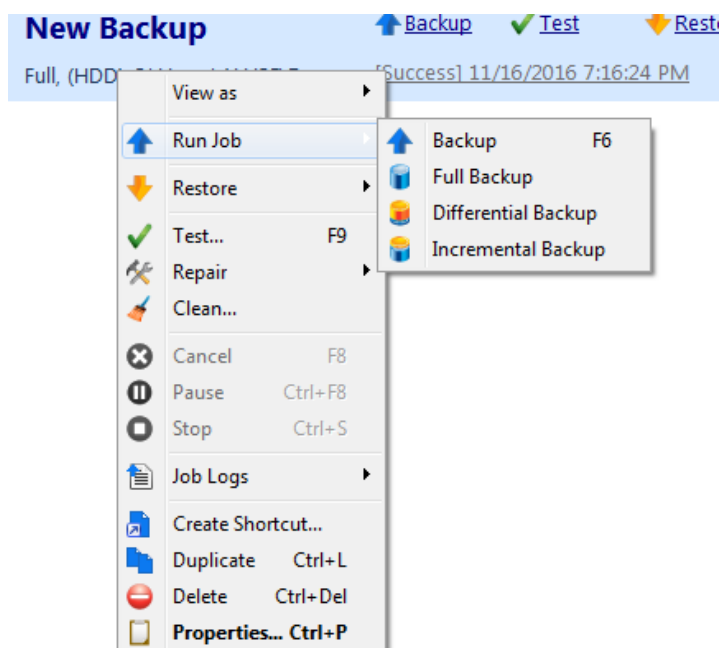

Hacemos el backup.

La ruta.

En job, click derecho “Run job” y “Differential backup”

La segunda ruta.

► ALU2F ► My Documents ► My Backup4all ► New Backup ► 2_C ► Users ► ALU2F ► Desktop ► apuntes

Hacemos ahora una copia incremental.
